

SpringBoot Assignment 6

After reading the chapter and the presentation of JDBC files, what I expect is:

1. Make SpringBoot project
2. This project should be able to do four main functions CREATE, READ, UPDATE and DELETE (CRUD) from MySQL database
3. You have to make three jsp pages such as main.jsp, view.jsp and edit.jsp
4. You can use CrudRepository or JpaRepository for connecting pages.
5. You can use the pictures as a guide.

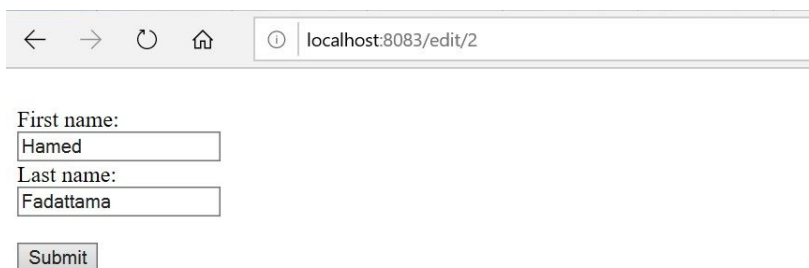

The screenshot shows a web browser window with the address bar displaying 'localhost:8083/'. The main content area contains a table with the following data:

ID	First Name	Last Name	Action
2	Hamed	Fadattama	View Delete Edit
5	Devin	McK	View Delete Edit
11	Hellen	Noori	View Delete Edit
6	Jackson	Arsenalpa	View Delete Edit
7	Vivi	Torece	View Delete Edit
8	Glory	Pandapa	View Delete Edit
9	Mahdi	Noori	View Delete Edit
14	Osman	Windy	View Delete Edit
13	Zia	Borhanian	View Delete Edit

Below the table, there is a form to add a new user:

First name:

Last name:

The screenshot shows a web browser window with the address bar displaying 'localhost:8083/edit/2'. The main content area contains a form to edit a user:

First name:

Last name:

← → ↻ 🏠 ⓘ localhost:8083/view/2 📄 ☆	
ID	2
First Name	Hamed
Last Name	Fadattama
Back	

If you have any questions or need help for your projects, you can contact me via email to specify time to help you via WebEx.

Guide:

Make sure that you follow the following naming conventions for the zip file:

YourName-CIT-285-SU-Assingment6 I can't stress this enough!
